

PRASHANT BHALERAO

Full Stack Developer

Pune, Maharashtra | bhaleraoprashant48@gmail.com | 9511642214 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with hands-on experience across the MERN stack, Spring Boot, and Django, gained through two concurrent internships and several self-built, deployed projects. Comfortable owning a feature end-to-end — from REST API design and database schema to a responsive, production-ready UI. Recent focus includes TypeScript, Next.js, and cloud deployment fundamentals (AWS). Looking to bring that full-stack range to a product team.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, PHP

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Three.js, Responsive Web Design

Backend: Node.js, Express.js, Django, Spring Boot, REST API Development, Authentication & Authorization

Databases: MongoDB, MySQL (SQL)

Cloud & Tools: AWS Basics, Docker, Git & GitHub, Postman, CI/CD (basic exposure)

Foundations: Data Structures & Algorithms, Problem Solving, API Integration, UI/UX Basics

WORK EXPERIENCE

Full Stack Web Development Intern

Feb 2025 – Sep 2025

SkillEcted (Part-time, concurrent with ApexPlanet internship below)

- Completed a 7-month full stack internship building responsive web applications using the MERN stack (React.js, Node.js, Express.js, MongoDB)
- Developed and integrated frontend, backend, and database layers, including RESTful APIs and SQL data handling across multiple feature modules
- Managed version control and collaborative development workflows using Git & GitHub in a team setting

Web Development Intern

Aug 2025 – Sep 2025

ApexPlanet Software Pvt. Ltd. (Remote) (Part-time, concurrent with SkillEcted internship above)

- Developed responsive web pages using HTML, CSS, and JavaScript, with interactive features built via DOM manipulation
- Improved UI/UX consistency and usability across multiple web pages by refining layout, navigation, and component structure
- Used GitHub for version control and remote task submission in a distributed team setting

PROJECTS

Salary Survival Tracker | Spring Boot, MySQL, Thymeleaf, Docker | [Live Demo](#) | [GitHub](#)

- Built a full-stack personal finance tracking web application using Spring Boot, MySQL, and Thymeleaf with a clean, modern UI
- Designed backend services and a relational database schema to track income, expenses, and budget summaries; containerized with Docker

Amazon Clone | HTML5, CSS3, JavaScript | [Live Demo](#) | [GitHub](#)

- Rebuilt Amazon's core shopping UI — product listings, navigation, and cart-style layout — with pixel-accurate, fully responsive design
- Implemented interactive frontend logic with vanilla JavaScript and DOM manipulation across multiple page sections

BioWastex — Smart Waste Segregation | HTML5, CSS3, JavaScript | [Live Demo](#) | [GitHub](#)

- Designed and built a responsive awareness platform for smart waste segregation with a modern, accessible UI
- Architected the frontend with a scalable structure to support future full-stack expansion (planned backend/API integration)

Solar System Simulation (3D Project) | JavaScript, Three.js, WebGL | [Live Demo](#) | [GitHub](#)

- Developed an interactive 3D solar system simulation using Three.js with a custom WebGL scene, camera, and lighting setup
- Implemented orbital motion, planetary rotation, and user-controlled camera interaction (zoom, rotate, explore)

EDUCATION

Bachelor's Degree in Computer Science

2021 – 2024

Bhusawal Arts, Science and P.O. Nahata College of Commerce, Bhusawal Percentage: 75.03%

CERTIFICATIONS

- Full Stack Web Development – SkillEcted (8 Months); Internship Credential ID: FSDCPT7259
- Web Development Internship – Oasis Infobyte, ApexPlanet Software Pvt. Ltd.
- Build a Smart Chatbot using React.js (Webinar) | C & C++ Programming Certification
